WSL Golfers

On June 7th six employees represented WSL in the Waterford Chamber Golf Outing. Meghan, Kristy, Cindy W, Cindy L, Heather and Virginia all showed up in our pink WSL shirts to WOW the outing. Everyone there kept calling us “the pink shirt girls”. The team of Meghan, Kristy, and the Cindy’s won the prize for the highest score. Heather an Virginia’s team was not far behind.

1st Graders Last Visit

Every year in September we welcome a new class of Mrs. Kempken’s 1st graders from St Thomas School. It is always fun and exciting to get to meet them and spend time with them throughout the school year. The down side of this is that in June we always have to say goodbye to them as they move on to 2nd grade. They came for their last visit this year on June 2nd right before they left for summer vacation. They came for stretching class and to visit. It has been fun to watch them grow and mature from their first visit to us in the fall to now. We will miss them but look forward to seeing them 1 more time for Trick-or-Treat in October. In September we will get a whole new group of 1st graders. We hear that there are 25 of them. WOW! That is a big class. Thanks for coming.

Special Anniversaries

June was a busy wedding month many years ago. We celebrated 2 anniversaries at the beginning of June this year. Bill and Evelyn Reesman and Harry and Vi Halbach. The Reesmans celebrated 64 years on June 1st and the Halbachs celebrated 63 years on June 5th. Congratulations to all.

Message from Cindy

This is a friendly reminder about all things medical.

1. If we manage your medications, when you take a family member to any health care professional (doctor, dentist, eye, feet) and they are given a prescription, PLEASE bring it back as a written prescription. We need to have it filled by ALPS pharmacy so we are able to dispense it. This includes all medications, prescriptions, eye drops and over-the-counter meds.

Our staff is not allowed by law to dispense any medications, even over-the-counter medications, to a resident if we do not have a prescription and it has not come from ALPS pharmacy. If you bring in filled prescriptions or over-the-counter medications for you or your loved one, YOU will have to administer the medication each time until the medication is gone. Please do not purchase any over-the-counter items.

2. With summer holidays and family gatherings coming up, if you will be gone from the building during your normal med time please let the staff know ahead of time so they can have any medication packaged for you to take with you.

3. Please remember to inform the staff at least 24 hours prior to any medical appointment, including dentist, so we can have the proper paperwork ready for you. If you have any questions please call Cindy W or Meghan. Thanks

4th of July Float

Hear Ye, Hear Ye! We need your help! Once again WSL is going to participate in the 4th of July by having a float in the parade. The theme is “Proud to be an American”. We are looking for Residents and Family to ride on our float. A total of 10-12 people would be great. It’s fun, exciting & a wonderful way to celebrate the holiday. All you need to do is smile, wave and have fun. Please call Kristy 534-4055 if you have any questions or would like to participate.

Birthdays for June

- 6/18 Bob K.

Service Anniversaries

Floats from past parades
Spotlight on:

Our Fathers

We have 10 Dads here at Waterford Senior living. We wanted to make the day special for them. This year the Dads requested a “good old fashioned cookout”. So with the weathers cooperation we tried to accommodate them. They were all greeted with a boutonniere when they came down. The kitchen grilled out with all the fixings.

Between our 10 dads we have:

- 47 children
- 96 grand children
- 47 great grandchildren

Garden Up Date

We planted our vegetables on May 20th. A little late this year. In our garden we have cucumbers, cherry tomatoes, egg plant, mixed lettuce, chives, leaf lettuce, green beans and yellow beans. We got everything in before the warm weather and rain. WOW! Everything popped out of the ground over the weekend. When we looked on Monday we already had lettuce and beans sprouting. On June 11th we had our first picking of lettuce. Marlee put the mixed lettuce in our chef salads. We are looking forward to getting some of those tomatoes in a salad and a few meals of beans. AH!!! Summer is finally here.

Have you seen our flowers this year? If you haven’t you are really missing something. We have spent a lot of time making things look good. All of our pots look great. We have pots of plants all over, when you walk in the front to out in the back. Come and sit out on our patio and enjoy the beauty. Thanks to my 2 watering helpers for giving me a hand and keeping things looking great.
